Check your Understanding Quiz

The pre-lesson quiz is to be completed **before the first lesson**. We ask simple demographic questions (school and year group) and 5 multiple choice questions. The quiz takes approximately 5-10 minutes to complete.

The 'Check your Understanding' quizzes collect anonymous data from the pupils that we may use in our research. To track student performance across the pre- and post-lesson quizzes, we ask students to create a unique identifier. They will need to use the same identifier in the post-lesson quiz so we ask students to keep a record of this.
